ENTRYWAY / FLOOR COVERING

PARK PLACE ROLL-UP ENTRANCE MATTING

This attractive roll-up mat combines the ultimate in utility and durability. Aluminum rails are connected and cushioned with a thermoplastic hinge. Rails are fitted with carpet or vinyl strips. For positive anti-slip protection, specify abrasive surface in place of carpet or vinyl.

- Thermoplastic hinge - reduces metal to metal noise typically found in other mats
- Recess or surface applications
- Replaceable carpet and vinyl strips
- Custom sizes and shapes

FRAMES

FOR SURFACE USE

- 1) VINYL (BROWN OR BLACK)
- 2) ALUMINUM (MILL OR ANODIZED)

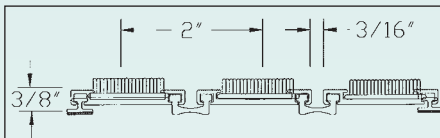

FOR RECESS USE

- 1) ALUMINUM (MILL OR ANODIZED)
(for installation into new concrete)

ENTRYWAY / FLOOR COVERING

COCOA BRUSH VINYL BACKED

100% Natural Cocoa Fibers are fused into a sturdy vinyl back creating an extremely long wearing and efficient scraper mat.

- Efficiently scrapes debris from shoes
- Absorbs 4 times its weight in moisture
- Durable vinyl backing protects floors
- Use in weather protected areas:
 - Building entrances
 - Foyers
 - Hotels, Churches, Schools, etc.
- Easily trimmed for custom fit
- Add heavy duty bevel edge for extra safety.
- Ask for quote on custom flocked or inlaid logos.
- Cleans easily with vacuum.
- Custom flocking or inlays available.

**THIS MAT CAN
BE CUSTOMIZED
WITH LOGO
OR MESSAGE**

COLOR: Natural

NOTE: Cementing down is not recommended. For recess use, new construction, see "RECESS FRAMES" pg. 5.

ENTRYWAY / FLOOR COVERING

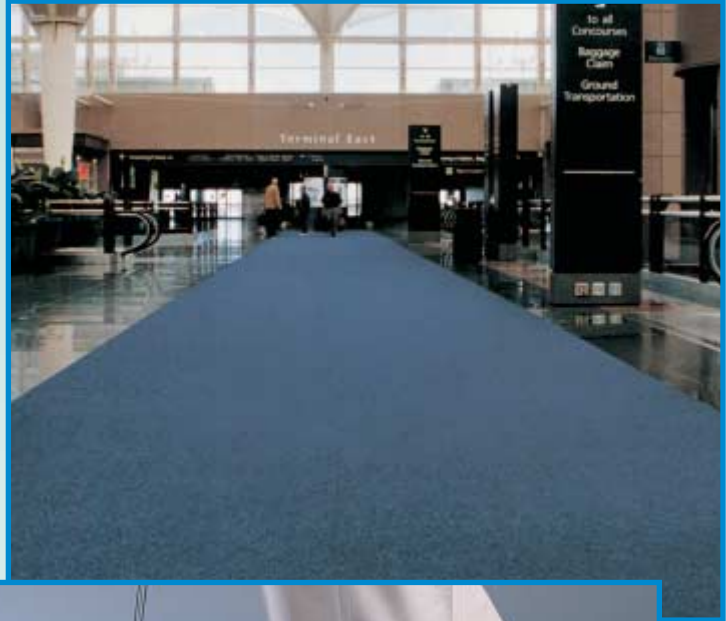

ULTRA-BERBER CARPET HEAVY DUTY FOYER, LOBBY & ENTRANCE CARPETING

This high performance commercial grade Berber is SPIKE RESISTANT and ideal for use in golf clubs, ski resorts or where other extreme conditions require a spike resistant product. Made of coarser, thicker, heavier denier, and therefore offers superior performance. May be used as loose laid Walk-Off mat or as Wall-to-Wall floor covering.*

*Wall-to-wall material should be professionally installed.

- Non-Woven Needle-punch polypropylene fiber.
- Spike resistant.
- Face Weight - 52 oz./sq. yd.
- Pile Height - 0.375"
- Stain resistant, Solution Dyed.
- Composite rubber backing.
- Mold and mildew resistant.
- UV resistant for outdoor use.
- Easily cleaned with vacuum or hose.
- Superior performance in heavy traffic areas.
- Heavy duty bevel edging lies flatter to reduce tripping and is standard on stock sizes.
- Pre-cut tiles available in 19 1/2" x 19 1/2" size.
- Spike resistant for golf clubs and pro shops.

ENTRANCE MATS

MONTEREY VINYL ENTRANCE MATS

MONTEREY VINYL MATS are recognized as the most durable available. Specified by restaurants chains, military installations and naval ships, banks, hotels, schools and countless commercial users.

- Durable corrugated vinyl extruded strips scrape dirt from shoes and traps it in deep grooves until the mat is cleaned.
- Available, PLAIN or with INLAID BLOCK LETTERS.
- Strips are hinged by 12 gauge galvanized wire.
- Steel reinforcing rod embedded in end nosing helps mat lie flat.
- High heel safe.
- May be ordered as surface use mat with bevel edging, or for recess use with stub nosing.

LOGO MATS

DIGI-PRINT COMPUTER PRINTED LOGO MATS

Using the latest technology, just about any design can be applied by a digital computer dye process. Many designs and logos that are too intricate with other methods are possible with DIGI-PRINT. Dye is injected deep into the Nylon yarn for a permanent presentation which won't wear off.

- Durable nylon yarn resists crushing and traps dirt.
- Cleated nitrile rubber backing helps, prevent excessive movement on most floors.
- Cleaning is easy; vacuum, extraction cleaning, hosing and hanging to dry, are recommended methods. Mats are commercially launderable.
- Choose up to 8 colors from a choice of 27 standard colors.
- Recommended for indoor use.

Colors: Subject to change from different dye lots. Printed colors are approximate.

TO ORDER A MAT...

1. Select mat size.

LOGO MATS

DELUXE MONOGRAM CUSTOM INLAID CARPET MAT

Custom logos and designs are cut and inlaid into a durable twist nylon fabric for a long lasting carpet mat which will enhance any entrance and promote your corporate image with unmatched visual clarity.

- Durable nylon yarn resists crushing and traps dirt.
- Cleated rubber backing helps prevent excessive movement on most floors.
- Cleaning is easy; vacuum, extraction cleaning, hosing and hanging to dry, are recommended methods. Mats are commercially launderable.
- Choose up to 8 colors from a choice of 43 colors.
- Recommended for indoor use.

COLORS: Subject to change from different dye lots. Printed colors are approximate.

CARPET MATS

CATALINA OLEFIN

CATALINA mats work in all kinds of weather, protecting floors from damaging dirt, moisture and wear. The long-wearing 100% continuous filament olefin pile takes the punishment of heavy traffic without fuzzing or pilling. Solution dyed fibers are long wearing and will not fade or discolor in sunlight. Traps 1.2 gallons of water per square yard - dries 4 times as fast as conventional nylon mats. Cleans easily by vacuum or hose.

TYPE 1437 CATALINA Approx 5/16" thick

CARPET MATS

WATER WELL I

TRAPS WATER AND DIRT BEFORE IT GETS ON THE FLOOR

WATERWELL'S amazing construction traps water and dirt created by heavy traffic, keeping it contained in the mat, so it won't get on the floor.

- Unique rubber dam and heavy denier polypropylene needle punched material traps and holds up to 1 1/2 gallons of water per square yard.
- Excellent scraping action to remove dirt, grit and moisture from shoes.
- Square pattern is reinforced with rubber (see cross section) to prevent matting down.
- Special cleated rubber backing helps prevents movement on carpeted and hard floor surfaces.
- Use indoor or outdoor.

NOTE: Custom sizes are not available on these products

WATER WELL II

Like our original Water-Well, this attractive parquet pattern mat offers the unique characteristics of trapping water and dirt before it gets on the floor. The edging of the mat actually acts as a rubber dam to retain water, preventing run-off onto the floor. Recommended for high traffic areas.

- 100% continuous olefin parquet pattern molded into a reinforced rubber base.
- Excellent scraping action.
- Cleated rubber backing helps hold mat in place.
- Use indoor or outdoor.

SCRAPER MATS

FINGER TOP FLEXIBLE RAISED FINGER MAT

Hundreds of flexible rubber fingers aggressively scrape dirt and debris from shoe soles. Dirt and grime are deposited at the base of the mat until cleaned.

- Durable molded rubber.
- Fingers remain flexible in all climates.
- Built-In moisture dam helps retain water.
- Bevel edge on all sides adds extra safety.
- Unique flexible finger design allows mat to be used for anti-fatigue applications.
- Easy to clean, simply hose or shake.
- Indoor/Outdoor use.

SCRAPER MATS

RIDGE-SCRAPER HEAVY DUTY RUBBER SAFETY SCRAPER

Raised rib surface provides positive traction in areas where extra safety is desired and effectively scrapes dirt and debris from shoes.

- Slip resistant surface promotes safety.
- Reduces slips and falls.
- Durable 3/8" thick molded rubber.
- Cleated backing helps prevent movement.
- Raised edging creates a "dam effect" to contain spills - ideal for use around fountains, bars, and other areas where spills and liquids could present a hazard.
- Resilient for worker comfort.
- Easy to clean, just shake or hose off

PINNACLE

THE ULTIMATE IN ANTI-FATIGUE FLOOR COVERING

"A NEW DIMENSION IN RESILIENT FLOORING"

PINNACLE combines the durability of commercial grade Berber carpet with an extra thick sponge base to create the most resilient multi-purpose anti-fatigue product, which is designed for use as a unique resilient floor covering or single area mat.

- 1" approximate overall thickness provides extremely good anti-fatigue characteristics.
- Heavy duty 1/2" thick Berber carpet is laminated to 1/2" sponge to create the ultimate in comfort.
- Attractive Berber surface aesthetically enhances areas where an upgraded designer look is desired.
- Extremely resilient to improve worker productivity.
- Available in standard pre-cut mats, or in special sizes as floor covering for use in larger work areas where workers benefit from unique anti-fatigue properties.
- Available with safety tapered bevel or square edge.
- High heel resistant.

COMFORT ZONE INTERLOCKING SYSTEM

COMFORT ZONE is a 1/2" thick rubber interlocking mat with a beveled outer edge. Honeycombed cell design absorbs shock and cushions the feet from constant contact with hard surfaces. The modular design enables you to combine ends and centers to create various lengths.

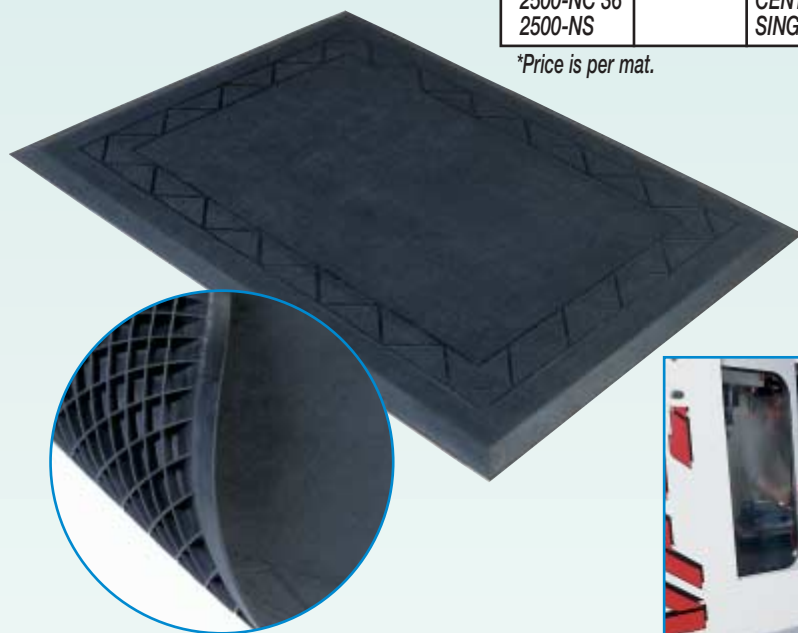

- Pebble Surface Pattern
- 28" or 36" widths
- Regular or Grease Resistant Rubber
- 5 interlocking connectors per joint
- Single sections are beveled on all four sides
- Molded safety bevel edges
- Use in: Supermarkets, Assembly Lines, Industrial Areas, Work Stations, Behind Counters, etc.
(Not recommended for use with high heels)

Ocean Gray

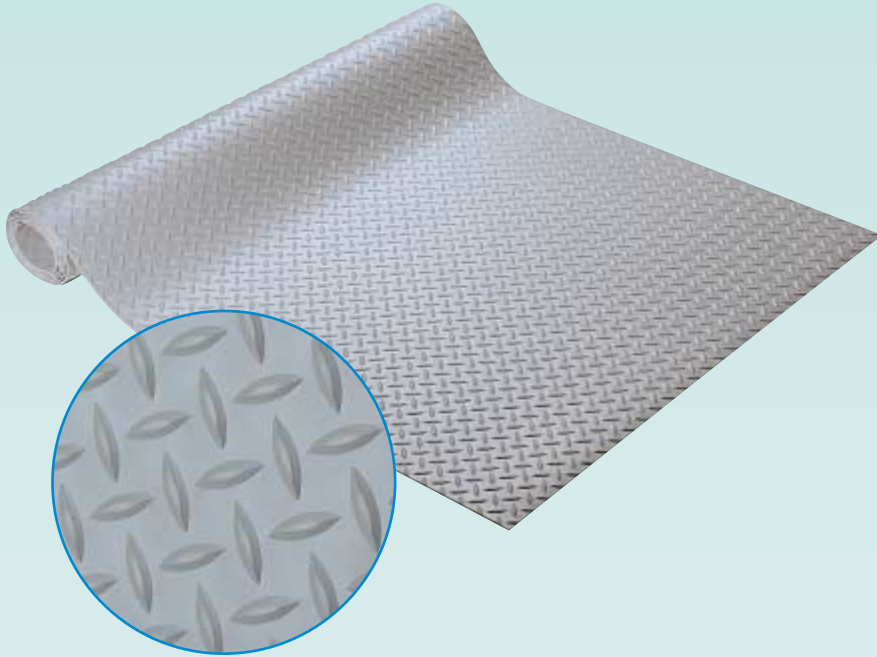

Industrial Brown

* FOR SUCCESSFUL INSTALLATIONS - CONSIDER THE FOLLOWING:

1. Surface must be clean, dry, and free of grease or oil.
2. For porous surfaces, outside installation or frequently washed surfaces, pre-coat surface with primer.
3. Use edge sealing compound for outside installations or when surface is frequently washed.
4. Use roller, applying as much pressure as possible when SKID SAFE is in position.

MILITARY GRADE DIAMOND SWITCHBOARD INSULATING FOR HIGH VOLTAGE APPLICATION

This insulating switchboard matting is tested to the requirements of Mil-DTL-15562G Type III. The matting displays an attractive diamond deckplate surface pattern for added slip resistance.

There are many industrial and commercial applications that take advantage of the characteristics unique to this specification, which include testing requirements for performance following exposure to sulfuric acid, oxygen bomb aging and ultraviolet light exposure.

- Proof tested at 15,000 Volts over entire surface.
- Dielectric Test Voltage - 30,000 Volts.
- Oil, Ozone, and Corona resistant.
- Fire resistant.

SWITCHBOARD

A.S.T.M. CORRUGATED SWITCHBOARD

Expressly designed to protect workers against electrical shock when working around high voltage apparatus within the product specifications. Conforms to OSHA requirements for electrical protective devices and is tested to ASTM D-178/ANSI J6.7 TYPE II, Class 2. Meets all optional requirements for Ozone Resistance, Flame Resistance, and Oil Resistance.

- Proof Tested at 20,000 Volts AC.
- Recommended Maximum Use Voltage - 17,000 Volts AC RMS.
- Dielectric Test Voltage - 30,000 AC RMS.

TILE LOCK WEIGHT ROOM MATTING SYSTEM

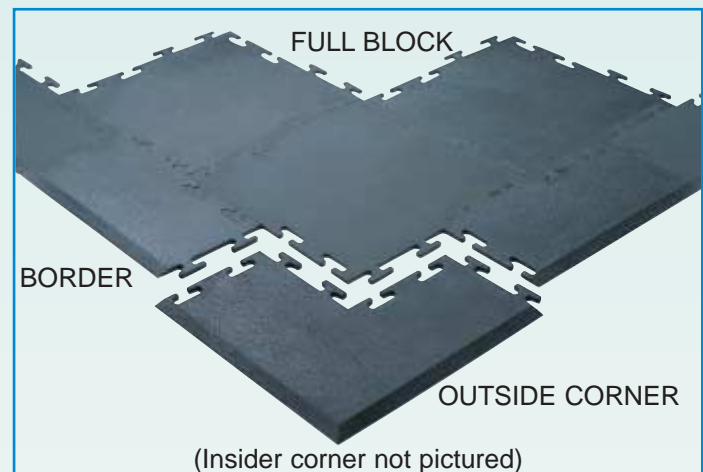

This solid and tough matting is molded using new virgin rubber and is more durable than other mats produced from recycled rubber.

Interlocking sections snugly fit together without gluing to fit almost any application. Designed to absorb shock and noise of heavy gym equipment and free weights. Tile Lock is also ideal for use in work areas not subjected to grease and where extra traction is desired.

NOTE: Not grease resistant or suitable for use under golf spikes.

- Safety molded bevel edge
- Easy installation and removal, no cementing required
- Low maintenance – Cleans easily with soap and water.
- Easily trimmed for custom fit.

COLOR: Black

NI-RIB

VERSATILE SAFETY RUNNER

Specially formulated rubber compound makes **NI-RIB** very versatile in a variety of foodservice and industrial applications where safety is important.

- Nitrile rubber compound is resistant to grease and oils.
- "V" rib design provides excellent slip resistance.
- Reduces trackage - debris is cleaned from shoes by squeegee action.
- Reversible - use rib side or knob side up for extended service life.
- Solid or Perforated styles.
- Lightweight, easy to handle.

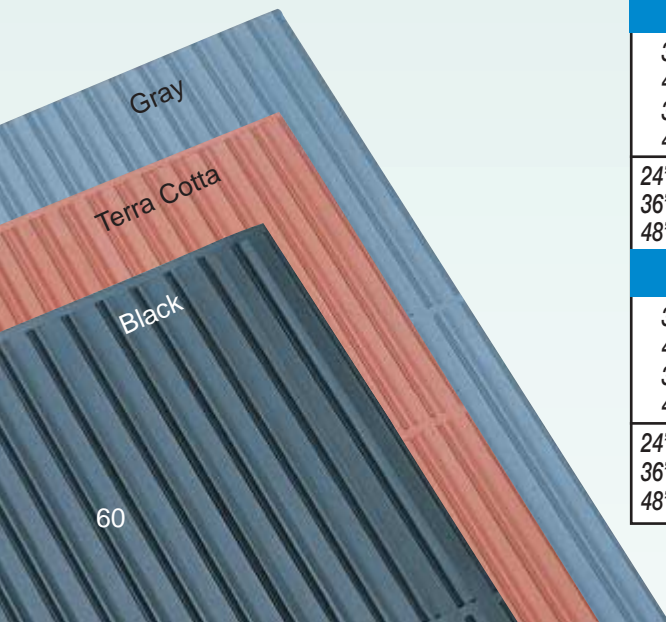

PERFORATED NI-RIB

Ideal for areas requiring drainage of liquids. Use in laboratories, showers, locker rooms, etc. Knob side up provides greatest comfort under bare feet.

SOLID NI-RIB

Recommended for Kitchens or Industrial applications where mats must be washed or handled frequently.

KITCHEN / INDUSTRIAL

REVERS-a-MAT REVERSIBLE SAFETY RUNNER

REVERS-a-MAT improves worker efficiency by relieving fatigue. It prevents slipping accidents and its natural resiliency reduces breakage of dropped objects.

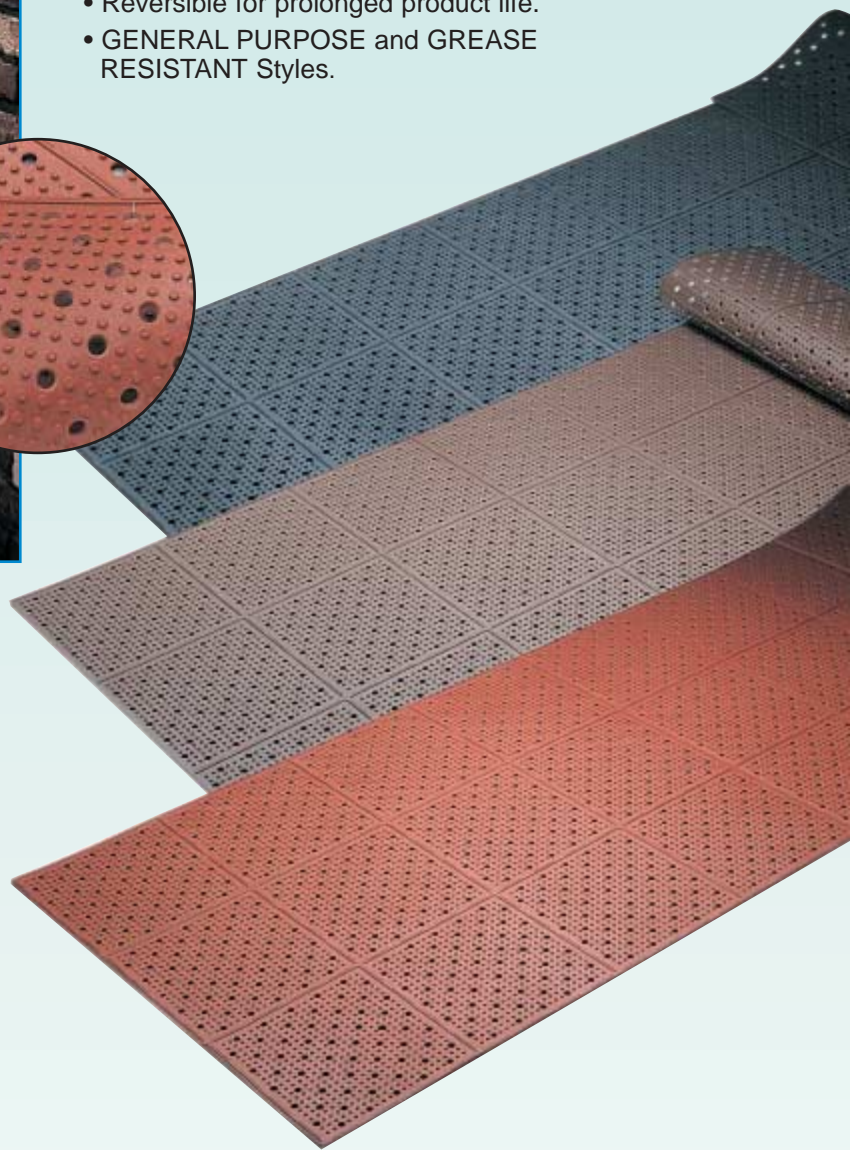

- Durable 3/8" thick rubber.
- Lightweight, for easy handling.
- Provides good drainage in wet areas.
- Anti-Fatigue improves worker productivity.
- Anti-Slip knob surface provides extra traction.
- Reversible for prolonged product life.
- GENERAL PURPOSE and GREASE RESISTANT Styles.

CUTTING BOARDS

RUBBER-CUT RUBBER CUTTING BOARDS

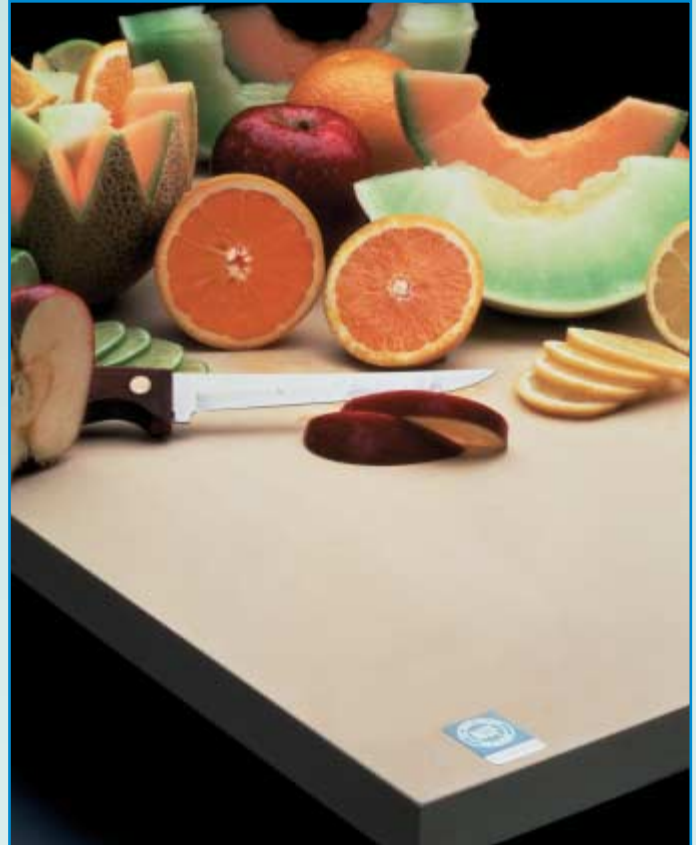

The most durable cutting board available. Unlike wood, it will not crack, chip, splinter, swell, absorb liquids, retain odors or harbor bacteria. The rubber compound is uniquely resilient, allowing the board to "give" under the pressure of a knife blade, protecting the board's surface while preserving the knife's edge. Should not be used with cleavers.

- NSF CERTIFIED, USDA ACCEPTED
- HIGH DENSITY RUBBER
- PRESERVES KNIFE'S EDGE
- REVERSIBLE
- NON-POROUS
- NON TOXIC
- NON ABSORBENT
- CAN BE RESURFACED BY SANDING

COLOR: Beige

NOTE: Please refer to cleaning and care instructions on page 68.

- Conveniently stores cleaned boards

SIZE: 10-3/4" w x 10-1/4" l x 10-3/4" h

TAC-MAT

CONTAMINATION CONTROL DRY MAT

TAC-MAT disposable mats are made of thin layers of adhesive coated polyethylene film, which removes dirt, contaminant and particulates from shoes and wheeled equipment on contact. When top sheet is soiled, simply peel off and discard to expose new clean sheet.

- 30 Peel-Off sheets per pad, and 4 pads per case.
- Use single pad, or place several side by side for expanded areas.
- Resistant to adhesive transfer.
- Water based adhesive.
- Consecutively numbered corner tabs let you know how many sheets remain on pad.
- Adhesive backing secures pad to floor.

ACCESSORIES

WONDER-GRIP

...HOLDS MATS IN PLACE ON CARPETED SURFACES

WONDER-GRIP is an unusually effective non-slip double sided adhesive coated anti-skid backing designed to be loose laid under any vinyl backed mat to prevent movement or creeping when used over carpeted surfaces.

- Helps prevent movement of walk-off mats and runners.
- Easy to install, simply loose lay a section of **WONDER-GRIP** on carpet*, and set your vinyl backed matting over it.
- High tech adhesive provides superior hold with no transfer to carpet.
- Specially treated anti-microbial material for odor and fungus protection.
- Easily cut to size with scissors.

*NOTE - We recommend using a section of **WONDER-GRIP** which is slightly smaller than the size of the mat to be held in place.

TYPE 307 WONDER-GRIP NON SLIP ANTI SKID BACKING

STAY-PUT BACKING

...KEEP YOUR MATS WHERE YOU PUT THEM

Any vinyl backed mat in this catalog may be ordered with our **STAY-PUT BACKING**. This permanent backing will hold your mats in place on most indoor surfaces including wood floors, marble, tile and vinyl floors.

TO ORDER:

Specify **STAY-PUT** backing to be applied to desired mat. To calculate **STAY-PUT** price, multiply by the square footage of the mat to which the backing will be applied.
Example: A 3' x 5' mat will require 15 sq. ft. of backing.

NOTE: STAY PUT BACKING is applied with special adhesives which may cause discoloration or staining on some floor surfaces.

TYPE 305 STAY-PUT BACKING Applied at factory

SIZE AS REQUIRED	APPROX. WT./LBS.	PRICE
	.1 sq. ft.	\$2.60 sq. ft. (applied at factory)

DOUBLE FACE TAPE PRESSURE SENSITIVE

Use to hold mats and runners in place. Surfaces must be clean.

HOOK & LOOP TAPE PRESSURE SENSITIVE

(REPLACES VELCRO®)

Use to reduce floor mat creeping. Easy to use, simply peel off the backing and apply to clean flat surface.

To hold mats in position on **LOOP PILE** carpet (will not work on cut pile), place several 6" lengths of **HOOK TAPE** on underside of mat. To hold a mat in place on a hard floor or surface, affix **HOOK TAPE** on the underside of the mat and the **LOOP TAPE** on the floor, making certain the two tapes line up.

TERMS & CONDITIONS

1. **TERMS:** Net 30 days.
2. **FOB:** All shipments are FOB shipping point; El Monte, CA or as specified.
3. **FREIGHT:** Collect or 3rd Party, please specify carrier and any special handling requirements on Purchase Order. UPS shipments will be made on a Prepay & Add basis, unless consignee billing is requested.
4. **MINIMUM ORDER:** \$100.00. Orders less than \$100.00 will be processed with the addition of a \$10.00 (net) charge
5. **RETURNED GOODS:** Please request RGA (Return Goods Authorization) within 60 days of purchase. Unauthorized returns will not be accepted. Authorized returns are subject to a 15% Restocking Fee, with a minimum charge of \$20.00. Special orders or custom cut material is not returnable.
6. **DROP SHIPMENTS:** We are pleased to process Drop Shipments for our dealers at no extra cost, (applicable freight charges not included).
7. **DAMAGE or SHORTAGES:** Title to goods changes to the consignee at time of pick-up by carrier. Please file claim for loss or damage with the delivering carrier. Always annotate damage/shortage on delivery receipt.
8. **FRACTIONAL INCH DIMENSIONS:** For pricing purposes, fractional inches will be rounded up to the next full foot increment. (except cutting boards, which will be rounded to the next full inch).
9. **TOLERANCES, WEIGHTS & COLORS:** Dimensions, weights and color representations are approximations only.
10. **WARRANTY:** All merchandise is warranted for a period of one year against manufacturing defects (not a wear guarantee). Claims are subject to our inspection and approval, and must be supported by proof of purchase. Our liability is limited to replacement on a prorated basis or repair of defective material. **CARE OF MATS:** Any stated warranty covers manufacturer's defects only, not wear. In the case of rubber mats exposed to grease, thorough daily cleaning (do not use dishwashers), using hot water, a degreaser (not containing chlorine or bleach), and a deck brush is essential in extending the life of the mats. Mishandling, improper cleaning, or folding mats will void any warranties.
11. **SPECIAL ORDERS:** Special orders are designated by "SO" on applicable price blocks. Lead times vary from 3 - 8 weeks.
12. **STAINING:** Interaction of physical properties of mats and floors may occasionally cause staining and discoloration of the floor. This is not an indication that the floor mat is defective, nor can a potential problem be determined in advance. Buyer assumes all responsibility should staining occur.
13. **GLUING MATS TO FLOOR:** Unless otherwise indicated mats should NOT be glued down. Expansion and/or contraction could cause buckling and create a safety hazard

WARNING:

ANY MAT THAT BECOMES DAMAGED, DOES NOT LIE FLAT OR IS WORN ENOUGH TO PRESENT A HAZARD, SHOULD BE REMOVED IMMEDIATELY. BUYER HAS THE RESPONSIBILITY TO DETERMINE THE SUITABILITY OF THE PRODUCT AND ASSUMES ANY LIABILITY IN CONNECTION WITH SUCH USE.
